International Baccalaureate (IB)

The Kilmore International School, Kilmore, VIC

Jan 2006 – Dec 2011

Projects

fsh zone

Capstone Project at AIE

c#, javascript, SQLite | Unity, Node.js, Socket.IO

2019

A small online multiplayer hangout browser game. Features a dedicated server written in JavaScript which interacts with a client made with Unity. My major contributions to the project have been the creation of an analytics solution using SQLite, and implementing the quest and inventory systems. All of these have been integrated into an existing codebase.

Moped Mayhem

Team Project at AIE

c# | Unity

2018

Moped mayhem is a game about delivering food while avoiding the mafia. I was the Lead programmer for the project. It taught me how to work with designers and artists and about the processes they use.
